

## 追悼 (Obituary) Joe S. H. Collins (1927–2019)

十脚類化石研究者の Joe S. H. Collins 氏 (ジョー S. H. コリンズ, ロンドン在住) が 2019 年 1 月に他界されました。Collins 氏は 1994 年以降, 当館研究報告を中心に論文を発表され, 十脚類化石の知見を広めることに貢献されました。また, 当館所蔵十脚類コレクションの充実のため, ヨーロッパ産カニ化石を中心とした標本や模式標本のレプリカを寄与されました (図 1)。なお, 日本産十脚類化石 2 種 (*Collinsius simplex* と *Ozius collinsi*) は Collins 氏の業績を讃え, 献名されたものです (図 2)。本誌に掲載された論文が, 氏のご健在のおり執筆された最後のものとなりますが, 氏が携わった共同研究の成果は今後順次発表されていくものと思います。氏の学術業績は数多く, ここでは, 日本における研究業績を掲げるのみとしました。

Collins 氏の生前のご厚情に深く感謝するとともに氏のご冥福をお祈りいたします。

Mr Joe S. H. Collins (London), a senior researcher of palaeontology died at January, 2019. He had submitted many excellent papers to the Bulletin of the Mizunami Fossil Museum (BMFM) since 1994. The paper published in this volume is his last one of papers. The Mizunami Fossil Museum has about 30,000 specimens of decapods. Among these there are about 500 specimens, kindly sent by Joe (Fig. 1). These contain many casts of type and figured specimens of the world. His collection is very useful to us and museum visitors. The generic name of *Collinsius simplex* and the specific name of *Ozius collinsi* was dedicated to Mr Collins and both types have been deposited in the Mizunami Fossil Museum (Fig. 2).

Fig. 1. Some of decapod specimens were sent by Mr Collins.
