

COVID-19 Infection Vaccine Injections

Vaccine injections for medical personnel started from February 19th.

Furthermore, from mid-April, vaccine injections will finally begin in sequence for the elderly in the various parts of Gifu Prefecture.

Please wait a short while longer, as information concerning vaccinations is scheduled to be sent out by municipalities to prefectural residents out from April onwards (injections will be provided free-of-charge).

Furthermore, if you have any questions or concerns about the effects of the vaccines or potential side-effects, please feel free to make use of the Gifu Prefectural Call Center where we will be happy to answer them.

Gifu Prefectural Vaccine Call Center

TEL: 058-272-8222
