Let's Get Together Using Japanese

The number of foreign residents living in Mizunami city is increasing year by year. Currently, there are around 1,200 people living here. In the community Japanese classes, while promoting interactions and cultural exchange, we aim to assist foreign residents in our city to learn easy Japanese expressions and ways of communicating in the hope that this will make their lives somewhat easier in Japan.

Organizer: Mizunami City Board of Education

Participants wanted

- Learners: Foreign residents wishing to study Japanese
- Japanese partners: Volunteer supporters

How to register

Learners (foreign residents wishing to study Japanese)

If the QR code cannot be scanned, please register by email or telephone.

- Requirements
- Over 16 years old
- Know basic Japanese words

Note: Those with intermediate or advanced knowledge of the Japanese language, please participate as a "Japanese partner" to assist other learners.

Goal

- ◎ Increase Japanese knowledge with each lesson.
- ◎ Find out the meaning of Japanese words the learner has heard before but did not know the meaning of.
- ◎ Be able to apply learned Japanese phrases in real life situations.

Japanese partners (volunteer supporters)

If the QR code cannot be scanned, please register by email or telephone.

- Requirements
- Over 16 years old
- Proficient in Japanese

Note: It is not required that you have experience teaching the Japanese language, or that you know a foreign language. Anyone with an interest in getting to know a foreign culture, or who wants to become friends with foreign residents is welcome to join.

Goal

- ◎ Use "easy to understand" Japanese
- Speak clearly / finish sentences / use short sentences / communicate with expressions and gestures / use pictures and illustrations whenever possible

Definition of "easy to understand" Japanese

It means using simpler, easier to understand Japanese expressions. Not all learners are English speakers. Also, even if Japanese is spoken slowly or is repeated over and over again, it is of no use if the learner does not understand the meaning of the vocabulary to begin with. Therefore, employing "easy to understand" Japanese will get the message across more effectively.
